September 3, 1999

Dear Readers:

Thank you for your concern regarding child abuse and neglect in Missouri. This report numerically represents all child abuse and neglect reports that were addressed by the Missouri Division of Family Services (DFS) in 1998. The report also includes a description of Missouri's unique, multiple-response system to addressing child abuse and neglect reports. Since 1994, DFS has worked to implement a more family-centered, community-based practice. Thanks to the successes of communities across the state, the 1998 Missouri General Assembly passed legislation that mandated the statewide implementation of this innovative practice.

Certainly, the enclosed report points to the continued need for strong community supports for families. The Division of Family Services is devoted to ensuring the safety of children and, whenever possible, preserving families. Through ongoing support of committed citizens, we believe that our shared desires for Missouri's children and families will be realized.

Sincerely,

A handwritten signature in cursive script that reads "Denise Cross".

Denise Cross
Director

DC/JJK

Introduction

Summary Statistics

This report compiles data collected by the Missouri Department of Social Services (DSS), Division of Family Services (DFS) in the course of Child Abuse and/or Neglect (CA/N) investigations/assessments.

Reports

- During 1998 there were 48,119 reports of child abuse/neglect, involving 75,178 children.

Total Number of Reports	48,119
Total Number of Reported Children	75,178

Probable Cause

- There were 8,217 probable cause incidents, involving 12,556 children. This represents approximately seventeen percent (17%) of all reports.

Total Number of Probable Cause Reports	8,217
Total Number of Probable Cause Children	12,556

Family Assessment Approach

- Across the state, a total of 11,545 reports were screened Family Assessment (FA) in accordance with Senate Bill 595, which was signed into law in 1994 and expanded statewide in 1998. These reports involved 18,647 children.

Total Number of FA Incidents	11,545
Total Number of FA Children	18,647

Note: All counts of children are duplicated because a child may be reported more than once during the year.

Introduction

Definitions

Legal:

The Missouri Child Abuse Law, Section 210.110 RSMo defines:

Abuse as any physical injury, sexual abuse, or emotional abuse inflicted on a child other than by accidental means by those responsible for the child's care, custody, and control except that discipline including spanking, administered in a reasonable manner shall not be construed to be abuse; and

Neglect as failure to provide, by those responsible for the care, custody, and control of the child, the proper or necessary support, education as required by law, nutrition or medical, surgical, or any other care necessary for the child's well-being.

Care, custody and control of the child, includes but is not limited to the parents or guardian of a child, other members of the child's household, or those exercising supervision over a child for any part of a twenty-four hour day. Those responsible for the care, custody and control shall also include any adult, who, based on their relationship to the parents of the child, members of the child's household or the family, has access to the child.

Investigation is the collection of physical and verbal evidence to determine if a child has been abused or neglected.

Family assessment and services is an approach which provides for a prompt assessment of a child and their family when the child has been reported to the DFS as a victim of abuse or neglect by a person responsible for that child's care, custody or control. Family assessments include the provision of community-based services to reduce the risk of abuse and neglect and to support the family. This approach takes the place of the traditional investigation.

Operational:

At the end of each child abuse/neglect investigation/assessment, the social worker reaches a conclusion. The following are operational definitions for investigative conclusions:

Probable Cause: A finding that abuse/neglect has occurred or is occurring as a result of the observation of visible signs, physical and/or credible verbal evidence provided to the Children's Services worker by the child, perpetrator or witnesses in accordance with the definitions of abuse/neglect. This also includes cases which are adjudicated by the courts.

Unsubstantiated-Preventive Services Indicated: A finding that insufficient visible signs, physical and/or credible evidence exist, but where the social worker determines that indicators are present which, if unresolved, could potentially contribute to child abuse/neglect.

Unsubstantiated: A finding that insufficient physical or credible verbal evidence exists and where few or no indicators are identified and the social worker has not identified a specific threat exists for the child.

Introduction

Operationally, a family assessment is completed in five demonstration areas in place of an investigation for certain types of CA/N reports. The following are definitions for Family Assessment conclusions:

Services Needed: The family is in need of services which may be provided by opening a Family-centered Services case or by referral to a community resource or other support system.

Services Not Needed: The family is not in need of services.

Non-cooperative/Child Safe: The family refuses to cooperate and the worker has been able to document that the child is safe and that there is not a serious risk of abuse/neglect.

For a small number of reports, the above definitions are not applicable. Other conclusions for either investigations or assessments include **Unable to Locate, Inappropriate Report, Located Out of State and Home Schooling.**

Methodological:

The following are technical definitions used in the computations of the statistics throughout this report:

Reported incident: An allegation of child abuse/neglect made to the hotline which meets the legal definitions for abuse/neglect and for care, custody, and control. A reported incident may involve more than one child and more than one alleged perpetrator.

Incident conclusion: The Children's Services worker assigns a conclusion to each child and to each alleged perpetrator involved in an incident. If at least one child is found probable cause, the incident is considered to be found probable cause.

Incident category of abuse/neglect: Up to four categories of abuse/neglect can be assigned to each probable cause child. Each incident may have up to six categories of abuse/neglect because each child may be found probable cause for different types of abuse/neglect. For incidents involving more than one child, each category of abuse/neglect is counted once if at least one child was found probable cause for that category.

Reported child: A child named in a reported incident of child abuse/neglect. A child may be reported more than one time during the year, and unless otherwise indicated, counts of children are duplicated in this report.

Child conclusion: The Children's Services worker assigns a conclusion to each child involved in an incident. Some children in the report may be found probable cause while others may be unsubstantiated.

Child category of abuse/neglect: Each probable cause child may be assigned up to four categories of abuse/neglect.

Alleged perpetrator: A person named as the perpetrator in a reported incident of child abuse/neglect. An alleged perpetrator may be involved in more than one incident during the year, and unless otherwise indicated, counts of alleged perpetrators are duplicated in this report.

Alleged perpetrator conclusion: The Children's Services worker assigns a conclusion to each alleged perpetrator involved in an incident. One perpetrator in a report may be found probable cause while another may be unsubstantiated.

Reports and Investigations/Family Assessments

Reports to Child Abuse/Neglect Hotline

Over the past year, the Child Abuse/Neglect Hotline Unit (CANHU) received 48,119 reports of child abuse/neglect, involving 75,178 children. The CANHU is operated year-round on a 24 hours per day, seven days per week basis by 35 trained and experienced Children's Services workers. Missouri's toll-free number for reporting child abuse/neglect is **1-800-392-3738**.

When a call is received at the CANHU, information is analyzed to determine whether:

- the child is under age 18;
- the alleged perpetrator has care, custody and control of the child;
- the alleged abusive or neglectful treatment is having an adverse effect on the child; and
- the report meets the definition of abuse/neglect described in state statutes.

Within moments of receiving a report, the information is forwarded electronically to one of the 114 county offices or the St. Louis City office for investigation. Investigations/assessments must be initiated within 24 hours or immediately when it is determined that the child is in imminent danger. An exception is when the only allegation is educational neglect. In this case, an investigation/assessment must be initiated within 72 hours. Social workers have 30 days to complete their investigations/assessments.

A call to the hotline is referred to as a report or reported incident of child abuse/neglect. A report may involve from one to several children. From 1994 through 1995 reported incidents increased; however, between 1996 and 1998 there was a decrease in both the number of reported incidents and children.

Incidents and Children Reported to the Child Abuse/Neglect Hotline and Annual Percent Change

<u>Year</u>	<u>Total Reports</u>	<u>Annual Change</u>	<u>Total Children</u>	<u>Annual Change</u>
1994	52,717		85,956	
1995	52,895	0.3%	85,879	-0.1%
1996	52,522	-0.7%	83,854	-2.4%
1997	51,143	-2.6%	80,169	-4.4%
1998	48,119	-5.9%	75,178	-6.2%

Note: All counts of children are duplicated because a child may be reported more than once during the year.

Reports and Investigations/Family Assessments

Incidents and Children Reported to the Child Abuse/Neglect Hotline, 1994-1998

- During 1998, the month with the most reports to the CA/N hotline was March with 4,531 reports, followed by September with 4,447. December had the fewest number of reports with 3,339.

1998 Child Abuse/Neglect Reports, by Month of Report

Reports and Investigations/Family Assessments

Reporters

Reports of child abuse/neglect can be made by persons who are either "mandated" or "permissive" reporters. Mandated reporters are required by state statute to report abuse/neglect when they have reasonable cause to suspect a child has been or is being abused. Mandated reporters include health and education professionals, social workers and foster parents, among others. Permissive reporters are those people not required to report suspected abuse/neglect, such as relatives or neighbors.

- Fifty percent (50%) of the reports made in 1998 were made by mandated reporters and thirty-seven percent (37%) were made by permissive reporters.

RSMo 210.115. Reports of abuse or neglect, who shall make. – *When any physician, medical examiner, coroner, dentist, chiropractor, podiatrist, resident, intern, nurse, hospital and clinic personnel (engaged in examination, care or treatment of persons), and other health practitioner, psychologist, mental health professional, social worker, day care center worker or other child care worker, juvenile officer, probation or parole officer, teacher, principal or other school official, Christian Science practitioner, peace officer or law enforcement official, or other person with responsibility for the care of children, has reasonable cause to suspect that a child has been or may be subjected to abuse or neglect or observes a child being subjected to conditions or circumstances which would reasonably result in abuse or neglect, he shall immediately report or cause a report to be made to the division in accordance with the provisions of sections 210.110 to 210.165.*

Reports and Investigations/Family Assessments

- The most common mandated reporter occupations were social workers, followed by law enforcement officers and school officials.

Reporters of Child Abuse/Neglect by Occupation, 1998

	<u>Number</u>	<u>Percent</u>
Permissive	18,768	37.2%
Unknown	6,461	12.8%
Social worker	5,611	11.1%
Peace officer or law enforcement official	5,185	10.3%
Principal or other school official	4,890	9.7%
Nurse	2,347	4.7%
Mental health professional	2,099	4.2%
Other person with responsibility for care of children	1,201	2.4%
Physician	891	1.8%
Juvenile officer	840	1.7%
Teacher	691	1.4%
Day care center or other child care worker	605	1.2%
Psychologist	316	0.6%
Foster parents	137	0.3%
Probation or parole officer	107	0.2%
Other hospital/clinic personnel	105	0.2%
Other health practitioner	68	0.1%
Medical examiner	26	0.1%
Intern	17	0.0%
Dentist/Dental hygienist	15	0.0%
Coroner	13	0.0%
Christian Science practitioner	7	0.0%
Resident	3	0.0%
Chiropractor	2	0.0%
Optometrist	1	0.0%
	<u>50,406</u>	<u>100.0%</u>

Note: Reporters exceed reports because more than one person may report an incident.

Reports and Investigations/Family Assessments

Child Abuse/Neglect Investigations/Family Assessments

Children's Services workers investigate/assess each report to determine if abuse/neglect is occurring or has occurred and evaluate the family's need for services. Thorough investigations/assessments require hours of interviews and information collection, and usually include the major steps listed below:

- Contacting the reporter, if known, for additional information before proceeding with the investigation;
- Contacting appropriate law enforcement personnel or multidisciplinary team members to request a co-investigation if the report involves sexual abuse or serious physical abuse/neglect;
- Making a determination regarding the safety of the child within 24 hours;
- Contacting collateral persons;
- Interviewing witnesses;
- Interviewing the non-offending parent;
- Interviewing the alleged perpetrator(s);
- Evaluating and documenting all information collected and observed;
- Determining whether abuse/neglect has occurred or is occurring; and
- Evaluating the family's need for services and making appropriate referrals for needed services.

DFS policy requires completion of investigations/assessments within 30 days. When the Children's Services worker determines that there is probable cause to believe that abuse/neglect has occurred, or is occurring, the family is advised of available services. The family also is offered services when the investigative conclusion is Unsubstantiated-Preventive Services Indicated or when a Family Assessment indicates the need for services.

Reported Incidents by Conclusion, 1998

Reports and Investigations/Family Assessments

Reported Incidents by Conclusion 1994 - 1998

	Probable Cause		Unsubstantiated- PSI		Unsubstantiated		FA*		Other		Total

Other - Unable to Locate, Inappropriate Report, Located Out of State and Home Schooling

* The 1998 breakout of reported children of Family Assessment incidents by conclusions can be found in Appendix D.

Reports and Investigations/Family Assessments

During the year, 12,556 children were involved in incidents that were found probable cause for abuse or neglect. When a Children's Services worker determines there is probable cause that abuse/neglect has occurred, each child can be assigned up to four categories of abuse/neglect. As the graph below indicates, the most prevalent category is neglect, followed by physical abuse and sexual maltreatment.

**Probable Cause Children
by Category of Abuse/Neglect, 1998**

Probable Cause Children by Category of Abuse/Neglect, 1998

	<u>Number</u>	<u>Percent</u>
Neglect	6,857	54.6%
Physical Abuse	2,728	21.7%
Sexual Maltreatment	2,293	18.3%
Educational Neglect	1,190	9.5%
Medical Neglect	346	2.8%
Emotional Maltreatment	254	2.0%

Percent is the percentage of total probable cause children. Percent total is greater than 100 because a child may be found probable cause for up to four categories of abuse/neglect.

Probable Cause Child Abuse/Neglect

Child Demographics

- The most common age group for probable cause children was 5 - 9 years, followed by ages 10 - 14. Relatively few (5.7%) of probable cause children were less than one year old.

Probable Cause Children by Age, 1998					
<u>Age</u>	<u>Number</u>	<u>Percent</u>	<u>Age</u>	<u>Number</u>	<u>Percent</u>
< 1	721	5.7%	10	752	6.0%
1	665	5.3%	11	713	5.7%
2	642	5.1%	12	709	5.6%

4	707	5.6%	14	696	5.5%
5	836	6.7%	15	657	5.2%
6	863	6.9%	16	441	3.5%
7	914	7.3%	17	141	1.1%
8	855	6.8%	Unknown	23	0.2%
9	797	6.3%		12,556	100.0%

Probable Cause Child Abuse/Neglect

**Probable Cause
Children by Sex, 1998**

- In 1998, forty-six percent (46%) of the probable cause children were male, and fifty-four percent (54%) were female.

**Probable Cause
Children by Race, 1998**

- Seventy percent (70%) of probable cause children were white and twenty-eight percent (28%) were black.

* Other includes Hispanic, Oriental, American Indian, Other and Unknown.

Sex and Race of Probable Cause Children, 1998

	<u>Number</u>	<u>Percent</u>
Male	5,804	46.2%
Female	6,749	53.8%
Unknown	3	0.0%
	<u>12,556</u>	<u>100.0%</u>

	<u>Number</u>	<u>Percent</u>
White	8,829	70.3%
Black	3,457	27.5%
Hispanic	139	1.1%
Oriental	27	0.2%
American Indian	23	0.2%
Other	45	0.4%
Unknown	36	0.3%
	<u>12,556</u>	<u>100.0%</u>

Probable Cause Child Abuse/Neglect

Information gathered during an investigation of child abuse/neglect can help identify factors which place a child at risk for abuse/neglect. In addition to establishing an investigative conclusion for each child, Children's Services workers may designate up to four **Observed Family Characteristics** for each reported incident. For families where abuse/neglect is found, these characteristics may indicate which services could help prevent the reoccurrence of abuse/neglect. It is important to note that these are not absolute counts. For instance, a problem with alcohol or other drugs may be difficult to detect during the course of an investigation.

- The family characteristics reported in 1998 are similar to those reported during the last five years. Over thirty-three percent (33%) of the probable cause incidents involved single parent families. Thirty-three (33%) of the families involved in probable cause incidents were amenable to services. The top twenty family characteristics are listed below.

Characteristics of Families Involved in Probable Cause Incidents, 1998 (Non-institutional incidents only)

	<u>Number</u>	<u>Percent</u>
Single parent household	2,770	33.7%
Amenable to services	2,737	33.3%
Lack of parenting skills	2,427	29.5%
Adequate living conditions	2,330	28.4%
Stable family relationship/household	1,037	12.6%
Appropriate parenting skills	898	10.9%
Heavy continuous child care responsibility	734	8.9%
Domestic Violence	686	8.3%
Insufficient/misuse of income	637	7.8%
Alcohol related problem(s)	562	6.8%
Other drug related problem(s)	516	6.3%
Marital Problems	485	5.9%
Recent/frequent relocation	438	5.3%
Recent loss/addition to household members	423	5.1%
New baby in home/pregnancy	366	4.5%
Crowded Living Conditions	322	3.9%
Extended family support system	302	3.7%
Role reversal	258	3.1%
Social isolation	249	3.0%
Loss of employment	207	2.5%

Percent is the percentage of total probable cause incidents. Percent total is greater than 100 because up to four family characteristics may be reported for each incident.

Probable Cause Child Abuse/Neglect

Neglect

During the year 6,857 children were found probable cause under the category of neglect. Among these children, the most common age group was 5 - 9 years, followed by ages 1 - 4.

Neglected Children by Age, 1998					
<u>Age</u>	<u>Number</u>	<u>Percent</u>	<u>Age</u>	<u>Number</u>	<u>Percent</u>
< 1	530	7.7%	10	364	5.3%
1	503	7.3%	11	347	5.1%
2	500	7.3%	12	302	4.4%
3	479	7.0%	13	281	4.1%
4	463	6.8%	14	262	3.8%
5	512	7.5%	15	276	4.0%
6	472	6.9%	16	169	2.5%
7	491	7.2%	17	53	0.8%
8	436	6.4%	Unknown	16	0.2%
9	401	5.8%		6,857	100.0%

Note: This is a duplicated count of children because a child may be found probable cause for neglect more than once during the year.

Probable Cause Child Abuse/Neglect

**Neglected
Children by Sex, 1998**

- Fifty percent (50%) of neglected children were male and fifty percent (50%) were female.

**Neglected
Children by Race, 1998**

- Seventy-one percent (71%) of neglected children were white and twenty-seven percent (27%) were black.

* Other includes Hispanic, Oriental, American Indian, Other and Unknown.

Sex and Race of Neglected Children, 1998

	<u>Number</u>	<u>Percent</u>		<u>Number</u>	<u>Percent</u>
Male	3,426	50.0%	White	4,837	70.5%

Unknown	3	0.0%	Hispanic	66	1.0%
	<u>6,857</u>	<u>100.0%</u>	Other	23	0.3%
			American Indian	13	0.2%
			Oriental	14	0.2%
			Unknown	25	0.4%
				<u>6,857</u>	<u>100.0%</u>

Probable Cause Child Abuse/Neglect

Neglected Children by Month of Report, 1998

- January and May had the highest incidence of child neglect with 697 children. The number of neglected children fell during the autumn months, with the low for the year occurring in December with 328 children.

In addition to assigning categories of abuse or neglect, a Children's Services worker may also describe up to five specific findings of abuse. For neglected children the most frequent worker descriptions are those typically associated with neglect, such as a lack of supervision and unsanitary living conditions. The ten most frequently reported worker findings for neglected children are listed below.

Worker Findings for Neglected Children, 1998

	<u>Number</u>	<u>Percent</u>
Lack of supervision	3,681	53.7%
Unsanitary living conditions	1,550	22.6%
Unsafe/inadequate shelter	768	11.2%
Poor hygiene (health threatening)	643	9.4%
Other abuse/neglect	478	7.0%
Parents indifferent to educational needs	347	5.1%
Rejection through indifference	411	6.0%
Lack of food	336	4.9%
Locking in or out, expelling from home	172	2.5%
Untreated illness/injury	163	2.4%

Percent is the percentage of total neglected children. Percent total is greater than 100 because a worker may list up to five specific findings for each child.

Probable Cause Child Abuse/Neglect

Physical Abuse

During the year 2,728 children were found probable cause under the category of physical abuse. Among these children the most common age group was 5 - 9 years, followed by ages 10 - 14.

Physically Abused Children by Age, 1998					
Age	Number	Percent	Age	Number	Percent
< 1	180	6.6%	10	157	5.8%
1	138	5.1%	11	160	5.9%
2	110	4.0%	12	143	5.2%
3	125	4.6%	13	184	6.7%
4	129	4.7%	14	179	6.6%
5	176	6.5%	15	162	5.9%
6	172	6.3%	16	125	4.6%

	<u>2,728</u>	<u>100.0%</u>

Probable Cause Child Abuse/Neglect

Physically Abused Children by Month of Report, 1998

- March had the highest incidence of physically abused children with 317. The number of physically abused children decreased during the spring to mid-summer. The numbers increased again in August and September before declining sharply during the months of October through December.

For physically abused children, the most frequently reported worker findings were bruises, welts or red marks and other physical abuse or injury. Lack of supervision is also cited quite frequently, suggesting that neglect may occur in some abusive situations. The ten most often reported worker findings for physically abused children are listed below.

Worker Findings for Physically Abused Children, 1998

	<u>Number</u>	<u>Percent</u>
Bruises, welts, red marks	1,725	63.2%
Other physical abuse or injury	598	21.9%
Abrasions, lacerations	315	11.5%
Lack of supervision	263	9.6%
Other abuse/neglect	151	5.5%
Blaming, verbal abuse, threatening	109	4.0%
Wounds, cuts, punctures	108	4.0%
Fractures (other than skull)	96	3.5%
Burns, scalding	75	2.7%
Locking in or out, expelling from home	49	1.8%

Percent is the percentage of all physically abused children. Percent total is greater than 100 because a worker may list up to five specific findings for each child.

Probable Cause Child Abuse/Neglect

Sexual Maltreatment

During the year 2,293 children were found probable cause under the category of sexual maltreatment. Among these children the most common age group was 10 - 14 years, followed by ages 5 - 9.

**Sexually Maltreated
Children by Age, 1998**

**Sexually Maltreated
Children by Age, 1998**

<u>Age</u>	<u>Number</u>	<u>Percent</u>	<u>Age</u>	<u>Number</u>	<u>Percent</u>

Unknown	<u>7</u>	<u>0.3%</u>
	2,293	100.0%

Probable Cause Child Abuse/Neglect

Sexually Maltreated Children by Month of Report, 1998

- July had the highest incidence of sexually maltreated children with 252. The number of sexually maltreated children fluctuated throughout the year before falling to the low for the year in November with 115.

For sexually maltreated children, the most frequently reported worker finding was fondling or touching. As with the physically abused children, lack of supervision is also cited quite frequently. This suggests that neglect may also occur in some situations of sexual abuse. The ten most often reported worker findings for sexually maltreated children are listed below.

Worker Findings for Sexually Maltreated Children, 1998

	<u>Number</u>	<u>Percent</u>
Fondling/touching	1,505	65.6%
Other sexual abuse	607	26.5%
Oral sex, sodomy	593	25.9%
Intercourse	375	16.4%
Digital penetration	343	15.0%
Lack of supervision	244	10.6%
Inappropriately giving drugs	37	1.6%
Bruises, welts, red marks	31	1.4%
Pornography	46	2.0%
Other physical abuse or injury	27	1.2%

Percent is the percentage of all sexually maltreated children. Percent total is greater than 100 because a worker may list up to five specific findings for each child.

Probable Cause Child Abuse/Neglect

Child Abuse/Neglect Fatalities

The number of probable cause fatalities in 1998 decreased from 1997. Thirty-three (33) children died as a result of child abuse/neglect in 1998, compared to forty-nine (49) in 1997.

These figures only represent children whose deaths are brought to the attention of DFS. Recent media attention, both on a state and national level, has focused on children whose deaths were never brought to the attention of the proper authorities despite the suspicious nature of their deaths. When fatal child abuse goes undetected, other children in the home and community remain at risk.

The number of fatalities reported during any given year may change as a result of pending investigations, changes in conclusions, and deaths not reported in a timely manner.

Probable Cause Child Abuse/Neglect

**Probable Cause Fatalities
by Age of Child, 1998**

- Of the 33 children involved in probable cause fatalities during 1998, the majority were under 5 years of age.

Probable Cause Fatalities by Age of Child, 1998					
<u>Age</u>	<u>Number</u>	<u>Percent</u>	<u>Age</u>	<u>Number</u>	<u>Percent</u>
< 1	18	54.5%	10	0	0.0%
1	5	15.2%	11	1	3.0%
2	3	9.1%	12	0	0.0%

4	1	3.0%	14	0	0.0%
5	1	3.0%	15	1	3.0%
6	1	3.0%	16	0	0.0%
7	0	0.0%	17	0	0.0%
8	0	0.0%	Unknown	0	0.0%
9	0	0.0%		33	100%

Note: The number of probable cause fatalities represents an unduplicated count of children.

Probable Cause Child Abuse/Neglect

**Probable Cause Fatalities
by Sex, 1998**

- Fifty-four percent (54%) of children involved in probable cause fatalities were male and forty-six percent (46%) were female.

**Probable Cause Fatalities
by Race, 1998**

- Sixty-four percent (64%) of children involved in probable cause fatalities were white and thirty-six (36%) were black.

Sex and Race of Probable Cause Fatalities, 1998

	<u>Number</u>	<u>Percent</u>		<u>Number</u>	<u>Percent</u>
Male	18	54.5%	White	21	63.6%
Female	15	45.5%	Black	12	36.4%
	33	100.0%	Hispanic	0	0.0%
			Oriental	0	0.0%
			American Indian	0	0.0%
			Other	0	0.0%
				33	100.0%

Probable Cause Child Abuse/Neglect

**Probable Cause Fatalities
by Category of Abuse/Neglect, 1998**

- A majority, sixty-seven percent (67%), of the CA/N fatalities were caused, at least in part, by neglect. Physical abuse was present in forty-two percent (42%) of the CA/N fatalities. Medical neglect and sexual maltreatment also contributed to some child fatalities.

**Probable Cause Fatalities
by Category of Abuse/Neglect, 1998**

	<u>Number</u>	<u>Percent</u>
Neglect	14	42.4%
Physical Abuse	22	66.7%
Medical Neglect	3	9.1%
Sexual Maltr.	2	6.1%

Percent is the percentage of total probable cause fatalities. Percent total is greater than 100 because a child may be found probable cause for up to four categories of abuse/neglect.

Perpetrator Demographics

Relationship of Probable Cause Perpetrator to Probable Cause Child, 1998

* Other includes the following: Grandparent, Sibling, Institutional staff, Child care provider, Foster parent, Adoptive parent, School personnel, Spouse/paramour, Other relative and Unknown.

- The most common type of alleged perpetrator was the natural parent of the child.

**Alleged Perpetrators and Probable Cause Perpetrators
by Relationship to Child, 1998**

	<u>Alleged Perpetrators</u>	<u>Probable Cause Perpetrators</u>	<u>Percent Found Probable Cause</u>
Natural parent	64,922	10,295	15.9%
Parent's paramour	5,323	878	16.5%
Stepparent	4,877	845	17.3%
Unknown	3,519	575	16.3%
Other	3,035	998	32.9%
Grandparent	2,237	335	15.0%
Other relative	1,982	512	25.8%
Institutional staff	829	115	13.9%
Child care provider	725	83	11.4%
Sibling	650	166	25.5%
Foster parent	604	102	16.9%
School personnel	564	62	11.0%
Adoptive parent	377	50	13.3%
Spouse/paramour	41	14	34.1%
Self	25	4	16.0%

Note: Total counts of perpetrators exceed total counts of children because a child may have more than one perpetrator.

Perpetrator Demographics

**Probable Cause Perpetrators
by Sex, 1998**

- Fifty-one percent (51%) of all probable cause perpetrators were female. Forty-six percent (46%) were male.

**Probable Cause Perpetrators
by Race, 1998**

- The race of probable cause perpetrators is similar to that of probable cause children. Seventy-two percent (72%) were white and twenty-three percent (23%) were black.

* Other includes Hispanic, Oriental, American Indian,

Sex and Race of Probable Cause Perpetrators, 1998

	<u>Number</u>	<u>Percent</u>		<u>Number</u>	<u>Percent</u>

	9,923	100.0%

Note: This is a duplicated count of perpetrators. An alleged perpetrator may be found probable cause for more than one incident during the year.

Perpetrator Demographics

Children's Services Workers may indicate up to four **Observed Perpetrator Characteristics** for each probable cause perpetrator of child abuse/neglect. These characteristics are used to develop client profiles and help illustrate which services may be beneficial to a family. For instance, if perpetrators have unrealistic expectations of children, providing information on child development can help teach more appropriate disciplinary techniques.

- In 1998, the most prevalent perpetrator characteristic was having unrealistic expectations of a child, which was the case for approximately thirty-five percent (35%) of the probable cause perpetrators. Social workers described twenty percent (20%) of the perpetrators as having no apparent mental or emotional disturbance and eighteen percent (18%) as being unemployed.

Characteristics of Probable Cause Perpetrators, 1998

	<u>Number</u>	<u>Percent</u>
Unrealistic expectations of child	3,457	34.8%
No apparent mental/emotional disturbance	1,960	19.8%
Unemployed	1,763	17.8%
Immaturity	1,647	16.6%
Loss of control during discipline	1,622	16.3%
Low self-esteem	1,254	12.6%
Amenable to services	1,242	12.5%
Alcohol-related problem(s)	1,085	10.9%
Other drug-related problem(s)	1,007	10.1%
Mental/emotional disturbance	791	8.0%
No one to call on in time of crisis	738	7.4%
Adequate support system	676	6.8%
History of criminal activity	547	5.5%
Pattern of violent behavior	457	4.6%
Parental history of abuse/neglect as a child	429	4.3%
Less than high school education	373	3.8%
High school education or higher	208	2.1%
Institutional report/unknown perpetrator	204	2.1%
Mental retardation	123	1.2%
Illness	83	0.8%
Incapacity due to physical handicap	61	0.6%
Other	39	0.4%

Percent is the percentage of total probable cause perpetrators. Percent total is greater than 100 because a worker may list up to four characteristics for each perpetrator.

Child Protection System: Family Assessment Approach

Missouri's Child Protection Services system culminated from a collaborative effort between the Division of Family Services (DFS), elective officials, community organizations and private citizens. Senate Bill 595 (SB 595) was signed into law in 1994 and expanded statewide in 1998. The primary focus of SB 595 is to protect children from abuse/neglect in the least disruptive and intrusive way, that recognizes the value of the family. In addition, the protection is provided in the most efficient and effective manner possible within the framework of state, community, and family resources.

The definition of child abuse/neglect and the criteria for reporting (including mandated reporting) remain the same. The most significant change to the Child Protection Services system is how the division responds to reports of child abuse or neglect. When a local county office receives a report, the report is screened to determine the appropriate intervention method. If the report indicates behaviors that constitute criminal violation, the response to the report is an evidentiary, fact-finding Investigation. It is DFS policy to notify the appropriate local law enforcement agency to assist in the Investigation.

Reports of child abuse or neglect that do not fall into the category of criminal violation may be responded to by conducting a Family Assessment. The main purpose of a Family Assessment is to determine the child's safety and the family's needs for services. Taking a non-punitive, assessment approach, has created an environment that assists the family and social worker in developing a rapport and building on existing strengths to create a mutually agreed upon plan. The attention is centered on long term effects of the intervention (success = independence) versus an individual incident (failure = dependence).

In 1994, the Missouri General Assembly mandated a two-year independent evaluation of the Family Assessment approach to addressing child abuse/neglect (CA/N). The evaluation concluded that the safety of children was improved, CA/N reports decreased, families received services more quickly, families were more cooperative, and community resource utilization increased. Additionally, the community joined together in coordinating available resources to assist children and families in need. These communities have continued to meet today's challenges by working to develop resources to better address needs.

Child Protection System: Family Assessment Approach

In summary, an investigative delivery approach is designed to focus the efforts of DFS and law enforcement on reports that indicate a crime had been committed. The remaining families are served through Family Assessments, in order to address any service needs. Families who are investigated and those who receive the Family Assessment response both receive prompt and effective delivery of services in order to address their needs.

Track assignments determine which approach, assessment or investigation, a hotline call will take. Reports that initially receive a track assignment of assessment may not, however, be concluded assessment (i.e., services needed, services not needed, or non-cooperative/child safe). Assessment tracks not concluded as such may have conclusions of unable to locate, located out of state, or home schooling. Therefore, the statistics on pages 33, 34, and 38 are not based on 11,545, the number of reports concluded assessment, but on the number of reports assigned a track of assessment. The number of reports during 1998 assigned a track of assessment equaled 12,358.

**Reports Made in Demonstration Areas by Type of Response
During 1998**

* Includes incidents with the conclusion of Inappropriate Report and incidents in which the conclusions are pending and the final response assignment could not be determined.

Child Protection System: Family Assessment Approach

- Of the 12,358 reports assigned to the family assessment track, thirty-one percent (31%) of the families were in need of services, fifty-eight percent (58%) did not need services, and only four percent (4%) were non-cooperative.
- Of the 32,741 reports assigned to the investigative track, twenty-five percent (25%) were found probable cause. The statewide substantiation rate was seventeen percent (17%).

* Other includes Unable to Locate, Inappropriate Report, Located Out of State and Home Schooling (based on response assignment)

Child Protection System: Family Assessment Approach

Child Demographics

- During the year 18,647 children were involved in reports screened family assessment. The most common age group for these children was 5 - 9 years, followed by ages 10 - 14. Relatively few (5.6%) children on family assessment reports were less than one year old.

Family Assessment Children by Age, 1998

Child Protection System: Family Assessment Approach

- For the Family Assessments where the worker concluded that services were required, a total of 6,871 service needs were identified, the most frequent of which was mental health services. Mental health services were accessed in approximately thirty-two percent (32%) of the cases. This was followed by parenting classes, which were utilized by twenty-five percent (25%) of the cases. The fifteen most frequently used services are listed below.

Service Needs for Family Assessments Concluded as Needing Services During 1998

	<u>Number</u>	<u>Percent</u>
Mental health services	1,213	31.9%
Parenting classes/education/household management	945	24.9%
Child care	533	14.0%
Health services	436	11.5%
Shelter	375	9.9%
Juvenile/family court services	375	9.9%
Employment services	319	8.4%
Educational services	290	7.6%
Child protection services	226	6.0%
Financial assistance	224	5.9%
Domestic violence services	221	5.8%
Substance abuse treatment	219	5.8%
Assistance with utilities	216	5.7%
Family preservation services	214	5.6%
Other	169	4.5%

Percent is the percentage of all family assessments where services were needed (Appendix C). Percent total is greater than 100 because up to 20 service needs may be reported for each family assessment.

Child Protection System: Family Assessment Approach

The goals of the family assessment approach are to assure child safety, address the strengths of the family and to identify and treat the family's needs. Services and supports for families are designed to build on the strengths and resources of families and communities. In keeping with this philosophy, the list of **Observed Family Characteristics** was expanded to include more strength-based characteristics. Some of the new characteristics are extended family support systems, problem-solving skills and good physical/mental health.

- In fifty percent (50%) of the assessments, the families had adequate living conditions. Thirty-seven percent (37%) of the assessments involved single parent households. Other frequently cited characteristics include amenable to services, appropriate parenting skills, stable family relationships, and extended family support system. The top 25 characteristics are listed below.

**Child Protection System Family Assessment Approach
Characteristics of Families Involved in Family Assessments
During 1998**

	<u>Number</u>	<u>Percent</u>
Adequate living conditions	6,173	50.0%
Single parent household	4,508	36.5%
Amenable to services	4,218	34.1%
Appropriate parenting skills	3,118	25.2%
Stable family relationship/household	3,058	24.7%
Extended family support system	2,431	19.7%
Lack of parenting skills	1,453	11.8%
Heavy continuous child care responsibility	1,380	11.2%
Problem-solving skills	1,223	9.9%
Insufficient/misuse of income	1,104	8.9%
Recent loss/addition to household members	860	7.0%
Recent/frequent relocation	842	6.8%
Community/cultural support	815	6.6%
Marital problems	788	6.4%
Appropriate child development knowledge	773	6.3%
Good physical/mental health	755	6.1%
Crowded living conditions	691	5.6%
No history of violence	687	5.6%
New baby in home/pregnancy	650	5.3%
Loss of employment	587	4.7%
Domestic violence	553	4.5%
Manages finances well	486	3.9%
Stable marriage	473	3.8%
Alcohol related problem(s)	429	3.5%
Social isolation	366	3.0%

Percent is the percentage of total family assessments. Percent total is greater than 100 because up to 15 family characteristics may be reported for each family assessment.

Child Protection System: Family Assessment Approach

- The characteristics for families involved in investigations are similar in rank to those of families in the assessment response. In thirty percent (30%) of the investigations, the families had adequate living conditions. Amenable to services, single parent household, stable family relationships, and appropriate parenting skills were also cited frequently.
- Investigations had a lower percentage (30%) of families with adequate living conditions, than did intervention families (50%). Investigated families had a lower percentage (3%) of families with extended support systems than did assessment families (20%). The top 25 characteristics are listed below.

**Child Protection System: Family Assessment Approach
Characteristics of Families Involved in Investigations
During 1998**

	<u>Number</u>	<u>Percent</u>
Adequate living conditions	9,968	30.4%
Amenable to services	9,729	29.7%
Single parent household	8,037	24.5%
Stable family relationship/household	4,918	15.0%
Appropriate parenting skills	4,539	13.9%
Lack of parenting skills	3,737	11.4%
Heavy continuous child care responsibility	1,824	5.6%
Insufficient/misuse of income	1,361	4.2%
Marital problems	1,235	3.8%
Domestic violence	1,218	3.7%
Recent/frequent relocation	1,198	3.7%
Recent loss/addition to household members	1,196	3.7%
Extended family support system	1,117	3.4%
Alcohol related problem(s)	892	2.7%
Crowded living conditions	889	2.7%
New baby in home/pregnancy	863	2.6%
Other drug related problem(s)	837	2.6%
Loss of employment	582	1.8%

Good physical/mental health	313	1.0%
Community/cultural support	277	0.8%
No history of violence	273	0.8%

Percent is the percentage of total investigations. Percent total is greater than 100 because up to 15 family characteristics may be reported for each investigation.

Prevention/Treatment Services

DFS has several programs designed to provide treatment and to help prevent future occurrence of child abuse and neglect.

Parental Stress Helpline: A DFS Parental Stress Helpline is available for parents who feel overwhelmed with parental pressures and responsibilities. The Helpline offers on-line crisis counseling to parents and provides referral information about local agencies which offer additional or more intensive services. The Helpline operates seven days a week, 24 hours a day. The toll-free telephone number of this emergency service is **1-800-367-2543**. Calls to the Parental Stress Helpline may be anonymous. However, if information is given that indicates child abuse/neglect has taken place, and identifying information is provided, the information must be forwarded to the DFS county office for investigation.

Family-centered Services (FCS): FCS are provided to families and children in their own homes when a child abuse/neglect investigation has been concluded Probable Cause, Unsubstantiated-Preventive Services Indicated or Family Assessment-Services Needed. These services are also provided to families who voluntarily seek help and to families whose children are placed out of the home. Services are provided following a family-centered assessment to identify risk issues, family strengths and service needs. A family treatment plan is developed with the family to help them change the conditions which brought them to the attention of DFS. Services are designed to help the family direct their own affairs and provide suitable care for the children. The primary purpose of FCS is to improve and maintain the family unit or to reunify the family when alternative care services are provided. Services include a range of treatment and support services. The family treatment plan determines whether services are provided by DFS staff and/or purchased or provided by community agencies. Purchased services include day care, family and/or individual counseling, home-based, family-centered services, evaluation and diagnosis, homemaker services and respite care, among others.

- During 1998 there were 11,762 FCS cases opened in Missouri.
- From 1994 through 1998, forty-three percent (43%) of all FCS case openings were the result of a probable cause investigative conclusion.
- In 1998, eight percent (8%) of all FCS case openings were the result of a Family Assessment.

Prevention/Treatment Services

**Family-centered Services Case Openings by Reason for Opening
1994 - 1998**

* Other includes Family Requests Preventive Services, Court Order and Newborn Crisis Assessment.

Intensive In Home Services (IIS): IIS are intensive in-home services designed to prevent unnecessary out-of-home placement of children. An in-home specialist provides a variety of services to the entire family to address the crisis that would normally necessitate out-of-home care for a child. Services are delivered immediately at the time of crisis and are time-limited, usually four to six weeks. In-home specialists carry small caseloads of two to three families. This enables them to spend as much time with the family as needed. The emphasis of IIS is on strengthening the entire family by improving its problem-solving capabilities and teaching them necessary life skills. Among other services, families may receive family therapy, individual and marital counseling, parenting education, child development training, household maintenance and nutritional training, job readiness training and referrals to other community resources. Families authorized for IIS may have children who have been abused or neglected, have committed a status offense, have displayed delinquent behavior, or who are seriously emotionally disturbed and are at imminent risk of being removed from the home. This service is voluntary and at least one caretaker must be willing to participate.

Prevention/Treatment Services

Out-of-Home Placement: Out-of-home care is provided in situations where a parent or parents are incapable of providing a child or children with adequate social, emotional and physical care. Out-of-home is defined as care provided in licensed foster or approved relative family homes, in licensed residential facilities, or in licensed foster group homes. The service provides substitute settings for children. Children are placed only after it is determined that they cannot remain at home.

Prevention of Abuse and Neglect through Dental Awareness (P.A.N.D.A.): The P.A.N.D.A. Coalition is a statewide private/public partnership formed in April 1992 in response to the need to involve the dental community in the reporting and prevention of child abuse/neglect. The objective of the coalition is to educate dental professionals on the ease and importance of identifying and reporting child abuse/neglect. Members of the coalition include Delta Dental of Missouri (a dental insurance company), Missouri Dental Association, Missouri Dental Hygienists' Association, Missouri Department of Health/Bureau of Dental Health, Missouri Department of Social Services/DFS and University of Missouri-Kansas City School of Dentistry.

Crisis Nurseries: The first state-funded crisis nurseries began providing services to children and their families in May 1993. There are nine of these facilities. Crisis nurseries are child care facilities which protect children by providing a safe environment at a time when the chances of abuse/neglect in the home are increased. Parents voluntarily request and arrange this service directly with the crisis nursery.

Child Abuse/Neglect Review Board: Division of Family Services' social workers reach a conclusion on each child abuse/neglect investigation and notify the parents and alleged perpetrator (if different than the parents) by letter of the conclusion. In some investigations where the conclusion is probable cause, the alleged perpetrator may disagree with the finding. The alleged perpetrator may appeal to the Child Abuse/Neglect Review Board for review of the investigation by contacting the local DFS office within 60 days of the notification of the finding. If there are pending criminal charges, the request may be made 60 days from the court's final disposition or dismissal of charges. If convicted, there is no appeal.

The Child Abuse/Neglect Review Board consists of two boards of nine private citizens appointed by the Governor. These boards each meet twice per month to review child abuse/neglect appeals. They listen to testimony from DFS staff, the alleged perpetrator, and representatives of the child and then make a decision to uphold or reverse the original DFS decision. During 1998, the review board heard 281 cases. The percentage of cases upheld by the Board was 65%.

Following the Child Abuse and Neglect Review Board's disposition, the alleged perpetrator will have 30 days to request a judicial review.

Background Screening and Investigation Unit: The Background Screening and Investigation Unit conducts background checks through the child abuse/neglect systems in DFS. These checks are run on prospective foster and adoptive parents for DFS and for current or prospective employees in the child care industry (day care, residential care providers, schools, etc.). The purpose of the unit is to provide information on potential employees so that a prospective employer can assess if the person is appropriate to care for children. During 1998, the unit processed 128,601 background checks.

Prevention/Treatment Services

Mandated Reporter Referrals: The state child abuse/neglect law mandates certain professions (mandated reporters) to make a report to the Missouri Division of Family Services when they have reasonable cause to suspect that a child has been or may be subjected to abuse or neglect. However, many times the mandated reporter may not suspect abuse or neglect but has some other concern about a family.

Effective July 1996 the division implemented a policy to accept referrals of concern from a mandated reporter which does not rise to the level of a CA/N report. The division refers to these calls as Mandated Reporter Referrals. This service is being provided because division staff are often aware of community resources available to families and to continue the positive communication between DFS staff and mandated reporters. The reporter will be told by the hotline social worker whether their call is being accepted as a hotline report or as a Mandated Reporter Referral. Mandated Reporter Referrals will be reported immediately to the appropriate county DFS Office.

Local DFS staff will contact the reporter within three working days of the report, or the next working day if the report is received on a Friday, to discuss the situation with the mandated reporter and mutually determine the most appropriate action to be taken. The exception is if the report indicates an emergency situation the reporter will be contacted as soon as possible. While the division in a few situations may offer services to families, the primary purpose is to help the mandated reporter make community support connections for the family. The following are possible responses to the referrals:

- The mandated reporter is made aware of appropriate community resources and provides referrals for the family.
- The reporter or DFS staff contact the family by telephone to assist the family in arranging appropriate referrals.
- DFS staff visit the family to obtain additional information and assess the needs of the family.
- DFS staff determine that, based upon additional information, a child abuse/neglect report is necessary.
- During 1998 there were 12,092 Mandated Reporter Referrals.
